| <input type="checkbox"/> Bullet2 | You are invited to take part in The American Family Health Study. This study is aimed at assessing the health of American individuals and families. The survey includes questions about health, family life, and other related topics. The information you provide will be used for scientific research designed to help improve health services and health education programs. Completing this survey will take around *xTimeAmt* minutes. Once this survey is complete we will send a *xDollarAmt* check in appreciation of your time. Your participation is voluntary. |
| <input type="checkbox"/> Bullet2 | The knowledge gained from this study is important for understanding how common experiences in life affect health. Your participation will give researchers a better understanding of the factors that influence health such as health care, marriage and divorce, having and raising children, and other life experiences. This information may be used to create policies and programs that help people in the future. Your participation is important because it will help the study accurately represent people like you. |
| <input type="checkbox"/> Bullet2 | For this survey, you will be asked questions online about your personal life. Answering these questions will take about *xTimeAmt* minutes. This survey will ask questions related to relationships, fertility, family dynamics, education, |
